Dano Zaganjor

FRONTEND webdeveloper

DEAR RECRUITER,

I am a driven and passionate FrontEnd developer, nearing the end of my studies at **KYH** Higher Vocational Education in Stockholm.

I am seeking an internship position (**between Nov 27 - Apr 12**) where I can contribute my technical skills while learning and further developing them from experienced colleagues.

I am highly committed to creating user-friendly and accessible digital products. As a prospective certified FrontEnd web developer, I have a broad knowledge of the latest technologies, including JavaScript, HTML, CSS, SASS, React, Vue, TypeScript, NodeJS, UX&UI in Figma and Adobe XD, WordPress, Scrum, and agile methodologies.

My natural ability to communicate and collaborate makes me a quick learner and adaptable team player. I am fluent in both Swedish and English, both spoken and written.
Additionally, I am driven by continuous improvement and hope to contribute to your team with my enthusiasm and skills while continuing to grow personally and professionally.

If you find my qualifications intriguing and see a potential match, please do not hesitate to contact me for an interview.
My email address is **dano.zaganjor@gmail.com**.

Thank you for taking the time to read my cover letter. I look forward to hearing from you and discussing the possibilities further.

Best regards,

Dano Zaganjor

COMPETENCE

- HTML
- CSS
- SASS
- JAVASCRIPT
- REACT
- VUE
- TYPESCRIPT
- NODE JS
- UX | UI
- FIGMA
- ADOBE XD
- WORDPRESS
- SCRUM

BRIEFLY

Web developer with a passion for creating intuitive and user-friendly interfaces. My creativity and technical skills enable me to transform client requirements into aesthetically appealing and functional designs. I also have experience working in teams and collaborating with other developers to create solutions that deliver a positive user experience.

EXPERIENCE

2022 - 2024
Student work with various tasks.

KYH Stockholm

2019 - Present
CEO founder | Web developer

DVNOWEB web agency in Stockholm

At DVNOWEB, I primarily work with corporate clients, assisting them in building websites using WordPress and providing ongoing maintenance. My work involves both design and support, allowing me to gain a comprehensive understanding of clients' needs and preferences.

2005 - 2015 and 2019 - 2022

Hår3000 Stockholm

Between 2005 and 2015, as well as from 2019 to 2022, I also worked as a hairdresser, training manager, and salon manager.

2015 - 2017
Restaurant - Founder, Manager

Milano Lounge
As a restaurant manager, I was responsible for all aspects of the restaurant, including cooking and ordering.

WORKFLOW

FRONT-END

- Proficient in developing websites using HTML and CSS, including responsive design and basic SEO/search engine optimization..

- Customizing websites for accessibility and familiarity with CSS frameworks such as SASS, Bootstrap, and Materialize.

- Knowledge of web standards and the ability to implement pre-existing JavaScript code and conduct testing of HTML/CSS web solutions.

- Experience working with frontend frameworks like React and Vue to create scalable web applications, and using TypeScript to write secure and maintainable code.

- Skills in creating web pages using WordPress and its plugins to build customized websites based on client requirements.

- Experience working with UI/UX design programs like Figma and Adobe XD.

BACK-END

- I am familiar with NodeJS, enabling the execution of JavaScript outside the web browser.

- I have knowledge of NoSQL databases that store data in JSON-like format and can use NodeJS and MongoDB together to develop scalable web applications and APIs.

2002 - 2004
Hairdresser
Hair & Face Stockholm

1993 - 2002
Hairdresser
AKT (Montenegro)

EDUCATION

2022 - 2024
FrontEnd webdeveloping
KYH Higher Vocational Education Stockholm
Currently, I am studying frontend development at KYH Yrkeshögskola in Stockholm. During my education, I have learned various techniques in HTML, CSS, SASS, JavaScript, Node.js, React, Vue, UX, and UI. I have also developed my skills in agile work and learned to use the Scrum method for project management. Through my education, I have gained a deep understanding of the techniques and tools used in frontend development, making me ready to contribute to technical projects and enhance user experience on websites and applications.

2018
Webdevelopment
The Folk University Stockholm
Intensive course 3 months
In 2018, I participated in an intensive web development course at Folkuniversitetet in Stockholm, which lasted for 3 months. Through the course, I learned the fundamentals of HTML, CSS, JavaScript, PHP, and WordPress. The course fueled my passion for web development, and I continued to enhance my skills through further education and practical experience.

- I understand how to build REST APIs with Express, allowing me to create simple and consistent interfaces for interacting with your databases.

- I understand how to use Electron to create desktop applications that work on Windows, MacOS, and Linux.

WORK METHODOLOGY

- As a project member, I have worked with various work methodologies, including agile, Scrum, Kanban, and non-agile models. Through my experiences, I have gained insights into the benefits and challenges of each method and can adapt my work accordingly. Additionally, I have proficiency in handling development tools and version control, as well as effectively gathering and documenting requirements. Test-driven development is an integral part of my work methodology to maintain high quality standards.

UI & UX DESIGN

- I have strong knowledge in UX design, usability, behavioral science, and communication theory, as well as a deep understanding of target audiences and their needs. Therefore, I can create user-centered websites that effectively support all user groups.

- I have extensive experience in using various techniques and tools to create efficient UI designs, allowing me to effectively implement these design concepts in web applications.
